PROFESSIONAL SUMMARY

Results-driven engineering student with hands-on experience in Salesforce CRM, SAP ABAP, Python, Java, and SQL. Skilled in developing business applications, automating workflows, and building data-driven solutions using Salesforce, SAP, FastAPI, and modern web technologies. Strong foundation in software development, enterprise applications, cloud technologies, and problem-solving.

TECHNICAL SKILLS

Programming	Python, Java, C
Web Technologies	HTML, CSS, JavaScript, React
Core Concepts	Data Structures & Algorithms, OOP, REST APIs, Version Control (Git, GitHub)
Cloud & CRM	Salesforce CRM (Administration), SAP ABAP, Google Cloud Platform (GCP)
Salesforce Tools	Objects, Fields, Relationships, Flows, Reports & Dashboards
Databases	MySQL, SQL
Tools & IDEs	VS Code, Git, GitHub, MS Excel
Soft Skills	Communication, Teamwork, Problem Solving, Time Management

INTERNSHIP EXPERIENCE

DevCon Associate – SAP Application Development Intern | Naxrita

May 2026 – Jun 2026

- Trained in SAP ABAP development through hands-on projects and real-world business scenarios, gaining practical experience in enterprise application development and problem-solving.
- Developed SAP ABAP reports and worked with Data Dictionary objects, internal tables, modularization techniques, and debugging tools to implement business requirements and use cases.

PROJECTS

College Institute Management System (Salesforce) | View Project

Salesforce Lightning, Flow Builder, Validation Rules, Object Manager

- Developed a Salesforce-based student management system using custom objects, record-triggered flows, and formula functions to automate admissions and roll number generation.
- Implemented validation rules, dependent picklists, and Lightning Record Pages to ensure data integrity and a seamless user experience using declarative tools (no Apex).

DevInsight AI PRO | RAG-Powered Repository Intelligence Platform | View Project

Python, FastAPI, React.js, TypeScript, RAG, Vector Embeddings, GitHub API

- Developed a RAG-powered platform to analyze GitHub repositories, generate vector embeddings, and enable semantic code search for intelligent repository exploration.
- Built a full-stack application using FastAPI and React.js that enables AI-powered repository analysis and contextual question answering.

Aadhaar Card OCR & Passcode Generator | View Project

Python, OpenCV, Tesseract OCR, Tkinter

- Developed a desktop application using Python, OpenCV, and Tesseract OCR to extract Aadhaar card details automatically and generate secure passcodes for streamlined visitor authentication and data processing.

EDUCATION

Bachelor of Technology (B.Tech) | 2026

Pragati Engineering College (Autonomous), Surampalem, AP | CGPA: 8.61 / 10.0 | 2nd Rank – III B.Tech I-Sem (2024–25)

Board of Intermediate Education | Sri Chaitanya Jr College, Kakinada, AP | Percentage: 85.1% | 2022

School of Secondary Education | Madhuri Vidyalaya, Gollaprolu, AP | Percentage: 89.3% | 2020

CERTIFICATIONS

[View All](#)

- Salesforce Certified Platform Developer
- Google Cloud Certified Associate Cloud Engineer
- Salesforce Certified Agentforce Specialist
- SAP Certified Associate - Back-End Developer - ABAP Cloud
- ServiceNow Certified System Administrator (CSA)

ACHIEVEMENTS & LEADERSHIP

[View All](#)

- Secured **2nd Rank** in III B.Tech I-Semester (2024–25) at Pragati Engineering College.
- Served as NSS Coordinator at Pragati Engineering College, leading volunteer activities and community service initiatives.
